Entrepreneurship Cell

In an effort to encourage the students of the college into becoming budding entrepreneurs, the college has established the incubation and innovation council (IIC) cell. This cell encourages the students for innovative entrepreneurial activities and is encouraged by the Ministry of Micro, Small, and Medium Enterprise (MSME). Being one of the most comprehensive and structured incubator units available in India, it is principally in charge of cultivating business ideas through the students and helps them grow to be business visionaries by giving them essential assets and knowledge. The IIC urges students to think about their business ideas and takes them through the loops from the idea to the materialization of that idea.

This materialization is possible through the activities that give them a solid stage to showcase their entrepreneurial skills. The support framework of the incubation unit consists of technical support, feasibility of the idea, expert suggestions, counselling and providing assistance. IIC is a full fledged department that focuses its effort in multi-dimensional role of converting the business ideas into commercial reality.

The following activities conducted by institute to encourage students for innovation and new business idea:

- Organizing lectures on entrepreneurship activity and attract the attention of students.
- Business idea competitions organized at institute level and regional levels
- Invited persons for lecture who has successfully launched Start-ups
- Mentoring and guiding students by IIC committee members

INSTITUTION INNOVATION CELL

IDEATHON (BUSINESS PLAN COMPETITIONS)

A one-day innovative technical presentation event named "IDEATHON-2021 and 2022 has been organised by the institution innovation cell at amrita sai institute of science and technology

The main intensions are to catalyst and enhance innovative ideas in various disciplined students of ASIST on various areas.

Name of the event : IDEATHON 2021 and 2022
Organized by : institution innovation cell
Place of event : CSE Seminar hall (first floor)

Objective of the Event: An ideathon is a short, intensive, brainstorming event to help young talents generate fresh solutions to existing challenges in their communities. Participants work in teams and use innovative ideation practices such as design thinking to brainstorm on possible solutions. Ideathon helps to engage potential Stakeholders from Academia, Government and Private Sector in the Lab Ecosystem. The main aim of the Ideathon is to develop Innovative skills in students. The Ideathon aims to bring together innovative academicians, researchers and industry to join hands for research development.

About the Program/Event: Ideathon is a unique and transformational leadership programme providing a creative space for leaders to generate ideas that can change people's lives and explore how to lead collaboration in their own organisations. Participants learn about collaborative leadership with peers from other organisations through a live experience of

collaboration. During this event, they create fresh ideas to solve real business challenges, presenting back the best of their thinking at the end. They learn practical tools and techniques, develop their own skills and behaviours and have the opportunity to network with leaders from different organisations.
