myIEEE is no longer accessible. Here's why and what's next.

myIEEE was launched back in 2006 as a way for IEEE members to easily access all that IEEE membership has to offer. At the time it was an innovative platform, but over the years technology has evolved, new online platforms have emerged, and the way members interact, share, and receive information has dramatically changed.

To better meet these changes and focus efforts towards the future, myIEEE has been shut down and replaced with two new valuable tools: IEEE Collabratec® and the newly launched volunteer portals.

NPTEL has been offering self-study courses across engineering, humanities and science streams for more than a decade. These are available at: <http://nptel.ac.in>. From March 2014 NPTEL has been offering online certification for its courses, the highlight being the certification exam through which the student gets an opportunity to earn a certificate from the IITs! These are available at: <https://swayam.gov.in/NPTEL>.

To take this initiative forward and to encourage more students across colleges to participate in this initiative, we are starting an NPTEL Local Chapter in colleges (with the approval of the management) and it will be

myIEEE is no longer accessible. Here's why and what's next.

The IEEE will launch myIEEE in 2014 as a way for IEEE members to easily access all that IEEE membership has to offer. At the time it was an innovative platform, but over the years technology has evolved, new online platforms have emerged, and the way members interact, share, and receive information has dramatically changed.

To accommodate these changes and focus efforts towards the future, myIEEE has been shut down and replaced with the new, valuable myIEEE Collaborative, and the newly launched myIEEE portals.

myIEEE is no longer accessible. Here's why and what's next

myIEEE was launched back in 2006 as a way for IEEE members to easily access all that IEEE membership has to offer. At the time it was an innovative platform, but over the years technology has evolved, new online platforms have emerged, and the ways members interact, share, and receive information has dramatically changed. To better meet these changes and focus efforts towards the future, myIEEE has been shut down and replaced with two new valuable tools: IEEE Collaborative and the newly launched volunteer portals.

IEEE

IEEE is no longer accessible. Here's why and what's next.

IEEE was launched back in 1963 as a way for IEEE members to easily access all that IEEE membership has to offer. At the time it was an on-line platform, but over the years technology has evolved, new on-line journals and emerging and the way in which we interact, share, and receive information has dramatically changed. To better meet these changes and focus efforts toward the future, IEEE has been shut down and replaced with two new journals: IEEE eLibrary and the newly launched IEEE Xplore.
